Exploit full potential of the Booming Pre-Owned Car Industry !

INFOMAN eDMS converts “Pre-Owned Sales” into hassle free ever growing Profit Centre of your dealership. Key processes of the purchase-sale cycle of Pre-Owned cars include:

7 secrets to maximise profits in every deal:

- Evaluate profitability of every deal using Chassis wise Profitability report.
- Maintain Evaluation history and avoid duplicate evaluation of the same vehicle at different locations.
- Paperless approval process for Vehicle Purchase, Additional Discount, Sale Price, Refunds and Payment Cancellation.
- Instant access to STOCK availability, Vehicle movement, Outstanding & Collection information and online documents like RC Copy, Insurance Policy, NOC etc.
- Workflow based approval for Customer refund / payment that is more than Customer's Balance.
- In Built controls ensure Selling price is not below defined amount to maximise profit margin.
- Maintain Chassis wise record of accessories of Pre-Owned Car to get better margins during negotiations.

INFOMAN eDMS catapults your team's performance to an unprecedented LEVEL.

- # MINIMISE INVENTORY HOLDING COSTS WITHOUT IMPACTING SALES!
- # KNOW THE COMPONENTS AND SHARE OF PROFIT FOR EVERY CHASSIS SOLD

INFOMAN eDMS provides relevant information to our customers in real time with minimum efforts. Some of the most preferred reports used by top management are:

- **Stock View:** Real time access to Stock information. Outlet-wise, Sub Model & Color wise Free /Allotted / Blocked (including stock in transit) with option for centralised/ decentralised allotment.
- **Chassis Wise Profitability:** Periodic report displays Outlet & Model / Sub Model wise profit for every chassis sold including Cash Discount & Free Accessories Given, Insurance /Finance Pay-out, Holding interest, Incentive Paid etc.
- **Calculation For Placing Order to OEM:** Obtain Sub-model wise / colour-wise indents to be placed with OEM based on pending booking, free stock, Allotted Stock, Pending Indent, Planned Indent and factors you define, etc. Projected numbers are based on Average Sale of last three months, Sale till date, Expected sale, Stock after expected sale & minimum stock level.
- **Monitor Team Performance:** Key Summary reports like Growth Analysis, Sale Vs Purchase Month wise analysis, Executive Wise Performance etc provide relevant information for all critical decisions.
